

Hibbing Community College Foundation

PROVIDE FOR A LEGACY

Here's a quick way to see what an endowment will provide for in terms of generating continuing scholarships to our Hibbing Community College students.

Enter the total amount you would like to contribute: \$

Your _____, one time contribution, would provide approximately _____ for scholarships each year.

Or simply enter the amount you would like the scholarship to be each year to see how much you would have to endow.

Enter the amount you would like awarded each year in scholarship/s. \$

You would need to contribute _____ to fulfill this goal.

These calculations are based upon these assumptions.

- An annual distribution of 4.25% from the Foundation's portfolio.***
